**UNITED STATES PATENT AND TRADEMARK OFFICE**

Applicant: Marocchini  
Serial No.: 10/603,928 Art Unit: 3753  
Filed: 6/25/2003 Examiner: Michalsky, Gerald, A.  
Title: Zero Clearance C-Ring Assembly

Commissioner for Patents

**ELECTION**

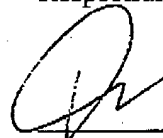

Dear Sir:

In response to the Restriction Requirement of 15 June, 2004, applicant hereby elects Group I, Claims 1-6. The examiner states that the combination does not require the particulars of the sub-combination, because "Group I neither recites nor requires the specific sub-combination of Group II." In fact, everything in Claim 7 is found, for example, in Claim 1, other than Claim 1 requiring a specific application. As such, it is submitted the restriction is improper at least as between Groups I and II.

Notably, it is submitted that the examination of Group II, Claims 7-12, would place no additional burden on the examiner. Thus, the examination of Claims 7-12 is requested.

However, applicant does elect Group I, Claims 1-6, with traverse. Examination is now requested.

Respectfully submitted,

Theodore W. Olds, Reg. No. 33,080
